Note: Statistics on construction authorized by building permits are based upon reports submitted by local building permit officials in response to a mail survey using Form C-404, "Report of Building or Zoning Permits Issued and Local Public Construction". Annual statistics are not based upon a sample, but are obtained by cumulating data for all places in the county, both monthly and annual reporters.

Limitations of the Data: Although these statistics are not subject to sampling variability, they are subject to various response and operational errors which can be attributed to many sources: inability to obtain information about all cases, differences in interpretation of questions, inability or unwillingness of respondents to provide correct information and errors made in processing the data. Explicit measures of the effects of these errors are not available. Other limitations of the data: (1) For the nation as a whole, less than 5 percent of all privately owned housing units built are constructed in areas that do not require building permits. (2) Some building permit jurisdictions close their books a few days before the end of the years, so that the time reference for permits is not, in all cases, strictly the calendar year. (3) A study spanning 4 years showed that about 3 percent of the single-family houses built in permit-issuing places are built without a permit.

Warning: If an incorporated place crosses county lines, all permits for that place are allocated to only one county. For example, all permits issued by the city of West Des Moines are allocated to Polk County; none are allocated to Dallas County. The data in this table are reported data only, i.e., when a report is not received from a jurisdiction, the missing data are not included in this table. Building permit data reported on web sites for the U.S. Census Bureau (<http://www.census.gov/const/www/C40/table2.html#annual>) and HUD (<http://socds.huduser.org/permits/>) may include imputed data. Imputations are based on the assumption that the ratio of a missing year's authorizations to those of a year ago should be the same for both respondents and non-respondents. For more information about imputation techniques, see <http://www.census.gov/const/C40/Sample/impute.pdf>.
