Health Profile

As the number of total births in Franklin County rose from 2000 to 2004, the number of births to teens increased by 6. In 2000, births to teens accounted for 10.6 percent of total births in the county compared to 13.5 percent in 2004.

Teen parenting is used as a predictor of future economic hardship for both parents and children. Teen parents are often less able to provide positive, safe and caring environments, or family stability.

In Franklin County, 3.8 percent of total births in 2004 were low birthweight compared to 7.0 percent statewide.

Low birthweight (less than 5.5 pounds or 2,500 grams) can be an indicator of mothers not receiving adequate prenatal care and is often a good predictor of future health and developmental complications.

Early and ongoing prenatal care increases the chances of delivering healthy, full-term, and normal weight babies. Rates are per 1,000 live births.

For the period from 2002 to 2003, the rate of mothers in Franklin County receiving prenatal care during the first trimester of their pregnancy was 759.3 compared to 886.2 statewide.

2. Births to Teens, Low Birthweight Births, Pre-natal Care, and Immunizations

Year	Franklin County		State		Franklin County		State		Franklin County		State	
	n	% of total births	n	% of total births	n	% of total births	n	% of total births	% fully immunized	rate (per 1,000 live births)	% fully immunized	rate (per 1,000 live births)

Source: Iowa Department of Public Health

* NOTE: Immunization data reflect only one site per county so should be interpreted with caution.

In Franklin County in 2004, 54 percent of children 24 months of age were reported to be fully immunized compared to 100 percent in 2000. Percentages for the state were 89 in 2004 and 84 in 2000.

Fully immunized = 4 DTP/DTaP, 3 Polio, 1 MMR, 3 Hib, 3 Hep. B by 24 months of age.

Infant mortality is considered one of the best overall measures of health care accessibility and quality in that it measures the health of the most vulnerable in a given population. The infant mortality rate is the number of infants who die before their first birthday per 1,000 live births.

In Franklin County, the infant mortality rate from 2002 to 2004 was 2.7, lower than the county rate of 1999-2001 and lower than the statewide rate of 5.3 in the 2002-2004 period.

NOTE: Due to the relatively low number of births, infant deaths, and child deaths per year in many of Iowa's counties, users are encouraged to use 3-5 year averages for comparative purposes. These are presented in Tables 3 and 4.

3. Infant Mortality

Year	Franklin County		State	
	n	rate	n	rate
1996-1998	1	2.7	1	6.6
1999-2001	1	2.9	1	5.9
2002-2004	1	2.7	1	5.3

Source: Iowa Department of Public Health

From 2002 to 2004, the child death rate in Franklin County was 0.0 compared to the state's rate of 0.2

Child deaths include deaths to all children ages 1 to 14. Child death rates are the number of deaths in this population per 1,000 total population age 1 to 14.

4. Child Death Rates

Year	Franklin County		State	
	n	rate	n	rate
2002-2004	0	0.0	0	0.2

Education Profile

In Franklin County, 45 children were enrolled in Pre-Kindergarten during the 2004-05 school year. This was a 21 child increase from 2001-02.

Pre-Kindergarten students often demonstrate stronger early reading and math skills than non PK students.

5. Pre-Kindergarten Enrollment

	Franklin County	State
2001-2002	24	5,714
2002-2003	29	5,949
2003-2004	43	6,907
2004-2005	45	6,108

Source: Iowa Department of Education

The Community Empowerment Families Area reported at least 45.4 percent of its kindergartners consistently displaying school-ready behaviors in the five areas. Statewide at least 33.7 percent of kindergarten students were reported as school ready.

"School readiness" is the result of kindergarten teachers being asked to assess their students in 5 areas: communication skills, cognitive skills, self-management skills, motor skills, and social-emotional development. Teachers report the degree to which behaviors within these five areas are observable ranging from "rarely" to "consistently".

6. School Readiness*, 2003-2004

	Empowerment Area		State
	n	rate	
Motor Skills ¹	64.8	46.1	
Communication Skills ²	45.4	33.7	
Cognitive Skills ³	55.5	41.8	
Social/Emotional Dev. ⁴	60.3	47.0	
Self-Management Skills ⁵	55.5	41.2	

* Percent reported "consistently observed"

Source: Iowa Department of Education

- ¹ Include coordination and balance, using scissors, etc.
- ² Include the ability to ask and answer questions, communicate needs, etc.
- ³ Include using a variety of words to describe a shape or color, ability to sort objects into categories, etc.
- ⁴ Includes ability to build relationships with adults and peers, express emotions and feelings, etc.
- ⁵ Includes ability to follow classroom rules and routines, take responsibility for personal belongings, etc.

Economic Profile

During the 2004-05 school year, 33.5 percent of K-12 students in Franklin County were eligible for free or reduced-price school compared to 28.0 percent in 2001-02. Statewide a total of 148,759 students (31.1%) were eligible for free or reduced price meals.

Because eligibility for free and reduced-price school meals is an annual measure, it is a good indicator of the economic well-being of children in a community. Families with incomes 135% or less of the federal poverty threshold are eligible for free meals, those with incomes 136% to 180% of poverty are eligible for reduced-price meals.

7. Eligibility for Free or Reduced-Price School Meals

	Number Eligible for Free Meals		Number Eligible for Reduced-Price Meals		Percentage Eligible for Free or Reduced Price Meals	
	Franklin County	State	Franklin County	State	Franklin County	State
2001-02	378	93,062	149	36,492	28.0	26.7
2002-03	384	100,544	159	36,870	29.3	28.5
2003-04	422	107,324	121	36,907	29.8	30.0
2004-05	424	111,390	180	37,369	33.5	31.1

Family Living Profile

While the majority of the 2,460 children under 18 years of age in Franklin County in 2000 resided in a two-parent family, 18.3 percent lived in a family headed by a single parent.

Children by Family Type, 2000

Source: Census 2000, SF1, US Bureau of the Census

In Franklin County, 69.3 percent of children under 6 living in a family or subfamily had all parents in the labor force compared to 71.4 percent statewide. All parents includes both parents in a married-couple family and the parent in a male- or female-headed family.

Safety Profile

The number of confirmed cases of child abuse or neglect in Franklin County in 2004 was 28, an increase of 1 since 2000.

9. Confirmed Cases of Child Abuse and Neglect

	Franklin County	State
2000	27	10,821
2001	43	12,793
2002	24	12,292
2003	43	14,936
2004	28	14,499

Source: Iowa Department of Human Services

In 2004, Franklin County reported 654 Group A and 269 Group B arrests per 100,000 juveniles compared to rates of 1,687 and 1,199, respectively, for the state.

Source and further details available @ http://www.dps.state.ia.us/documents_repository/DPS/2004/iacrime/iacrime.htm

Juvenile arrests are reported in 2 groups, Group A offenses include such crimes as murder, rape, burglary and drug violations while Group B offenses include curfew, drunkenness and runaways.

8. Employment Status of Parents with Young Children, 2000

	Franklin County		State
	n	%	%
Total Own Children in Families			
Under 6 years:	662		
Living with 2 parents	540		
Both parents in labor force	358	66.3	69.2
Living with father only	61		
Father in labor force	51	83.6	88.8
Living with mother only	61		
Mother in labor force	50	82.0	75.9
