Health Profile

As the number of total births in Osceola County rose from 1999 to 2003, the number of births to teens increased by 1. In 1999, births to teens accounted for 8.2 percent of total births in the county compared to 8.6 percent in 2003.

Teen parenting is used as a predictor of future economic hardship for both parents and children. Teen parents are often less able to provide positive, safe and caring environments, or family stability.

In Osceola County, 2.5 percent of total births in 2003 were low birthweight compared to 6.6 percent statewide.

Low birthweight (less than 5.5 pounds or 2,500 grams) can be an indicator of mothers not receiving adequate prenatal care and is often a good predictor of future health and developmental complications.

Early and ongoing prenatal care increases the chances of delivering healthy, full-term, and normal weight babies. Rates are per 1,000 live births.

For the period from 1998 to 2001, the rate of mothers in Osceola County receiving prenatal care during the first trimester of their pregnancy was 878.4 compared to 869.8 statewide.

2. Births to Teens, Low Birthweight Births, Pre-natal Care, and Immunizations

Year	Osceola County		State		Osceola County		State		Osceola County		State	
	n	% of total births	% of total births	rate (per 1,000 live births)	% of total births	rate (per 1,000 live births)	% fully immunized	rate (per 1,000 live births)	% fully immunized	% fully immunized	rate (per 1,000 live births)	% fully immunized
1999	6	8.2	10.6	6	6.2	---	---	77.0	---	77.0	84.0	84.0

Source: Iowa Department of Public Health

*NOTE: Immunization data reflect only one site per county so should be interpreted with caution.

In Osceola County in 2003, 90 percent of children 24 months of age were reported to be fully immunized compared to 77 percent in 1999. Percentages for the state were 89 in 2003 and 84 in 1999.

Fully immunized = 4 DTP/DTaP, 3 Polio, 1 MMR, 3 Hib, 3 Hep. B by 24 months of age.

Infant mortality is considered one of the best overall measures of health care accessibility and quality in that it measures the health of the most vulnerable in a given population. The infant mortality rate is the number of infants who die before their first birthday per 1,000 live births.

In Osceola County, the infant mortality rate from 2001 to 2003 was 4.4, lower than the county rate of 1995-1998 and lower than the statewide rate of 5.5 in 2001-2003 period.

NOTE: Due to the relatively low number of births, infant deaths, and child deaths per year in many of Iowa's counties, users are encouraged to use 3-5 year averages for comparative purposes. These are presented in Tables 3 and 4.

3. Infant Mortality

Year	Osceola County		State	
	n	rate	n	rate
1995-1997	3	12.0	7.1	7.1
1998-2000	1	4.5	6.2	6.2
2001-2003	1	4.4	5.5	5.5

Source: Iowa Department of Public Health

From 2000 to 2002, the child death rate in Osceola County was 0.2 compared to the state's rate of 0.2

Child deaths include deaths to all children ages 1 to 14. Child death rates are the number of deaths in this population per 1,000 total population age 1 to 14.

4. Child Death Rates

Year	Osceola County		State	
	n	rate	n	rate
2000-2002	1	0.2	0.2	0.2

Education Profile

In Osceola County, 0 children were enrolled in Pre-Kindergarten during the 2003-04 school year. This was a 0 child decrease from 2000-01.

Pre-Kindergarten students often demonstrate stronger early reading and math skills than non PK students.

5. Pre-Kindergarten Enrollment

	Osceola County	State
2000-2001	0	5,797
2001-2002	0	5,714
2002-2003	0	5,949
2003-2004	0	6,907

Source: Iowa Department of Education

The Lakes Area Empowerment Area reported at least 35.2 percent of its kindergartners consistently displaying school-ready behaviors in the five areas. Statewide at least 35.9 percent of kindergarten students were reported as school ready.

"School readiness" is the result of kindergarten teachers being asked to assess their students in 5 areas: communication skills, cognitive skills, self-management skills, motor skills, and social-emotional development. Teachers report the degree to which behaviors within these five areas are observable ranging from "rarely" to "consistently".

6. School Readiness*, 2002-2003

	Empowerment Area	State
Motor Skills ¹	53.5	48.8
Communication Skills ²	35.2	35.9
Cognitive Skills ³	45.8	44.5
Social/Emotional Dev. ⁴	55.1	50.1
Self-Management Skills ⁵	39.1	43.0

* Percent reported "consistently observed"

Source: Iowa Department of Education

- ¹ Include coordination and balance, using scissors, etc.
- ² Include the ability to ask and answer questions, communicate needs, etc.
- ³ Include using a variety of words to describe a shape or color, ability to sort objects into categories, etc.
- ⁴ Includes ability to build relationships with adults and peers, express emotions and feelings, etc.
- ⁵ Includes ability to follow classroom rules and routines, take responsibility for personal belongings, etc.

Economic Profile

During the 2003-04 school year, 21.1 percent of K-12 students in Osceola County were eligible for free or reduced-price school compared to 22.2 percent in 2000-01. Statewide a total of 144,000 students (30.0%) were eligible for free or reduced price meals.

Because eligibility for free and reduced-price school meals is an annual measure, it is a good indicator of the economic well-being of children in a community. Families with incomes 135% or less of the federal poverty threshold are eligible for free meals, those with incomes 136% to 180% of poverty are eligible for reduced-price meals.

7. Eligibility for Free or Reduced-Price School Meals

	Number Eligible for Free Meals		Number Eligible for Reduced-Price Meals		Percentage Eligible for Free or Reduced Price Meals	
	Osceola County	State	Osceola County	State	Osceola County	State
2000-01	127	93,823	85	37,754	22.2	26.7
2001-02	113	93,062	69	36,492	19.4	26.7
2002-03	141	100,544	56	36,870	21.0	28.5
2003-04	133	107,324	60	36,907	21.1	30.0
