Health Profile

As the number of total births in Webster County dropped from 2000 to 2004, the number of births to teens decreased by 9. In 2000, births to teens accounted for 12.6 percent of total births in the county compared to 10.8 percent in 2004.

Teen parenting is used as a predictor of future economic hardship for both parents and children. Teen parents are often less able to provide positive, safe and caring environments, or family stability.

In Webster County, 5.3 percent of total births in 2004 were low birthweight compared to 7.0 percent statewide.

Low birthweight (less than 5.5 pounds or 2,500 grams) can be an indicator of mothers not receiving adequate prenatal care and is often a good predictor of future health and developmental complications.

Early and ongoing prenatal care increases the chances of delivering healthy, full-term, and normal weight babies. Rates are per 1,000 live births.

For the period from 2002 to 2003, the rate of mothers in Webster County receiving prenatal care during the first trimester of their pregnancy was 847 compared to 886.2 statewide.

2. Births to Teens, Low Birthweight Births, Pre-natal Care, and Immunizations

Births to Teens			Low Birthweight Births			1st Trimester Prenatal Care			Full Immunizations*

Source: Iowa Department of Public Health

* NOTE: Immunization data reflect only one site per county so should be interpreted with caution.

In Webster County in 2004, 86 percent of children 24 months of age were reported to be fully immunized compared to 86 percent in 2000. Percentages for the state were 89 in 2004 and 84 in 2000.

Fully immunized = 4 DTP/DTaP, 3 Polio, 1 MMR, 3 Hib, 3 Hep. B by 24 months of age.

Infant mortality is considered one of the best overall measures of health care accessibility and quality in that it measures the health of the most vulnerable in a given population. The infant mortality rate is the number of infants who die before their first birthday per 1,000 live births.

In Webster County, the infant mortality rate from 2002 to 2004 was 9.7, higher than the county rate of 1999-2001 and higher than the statewide rate of 5.3 in the 2002-2004 period.

NOTE: Due to the relatively low number of births, infant deaths, and child deaths per year in many of Iowa's counties, users are encouraged to use 3-5 year averages for comparative purposes. These are presented in Tables 3 and 4.

3. Infant Mortality

Year	Webster County		State	
	n	rate	n	rate
1996-1998	9	5.9	6.6	
1999-2001	7	4.7	5.9	
2002-2004	14	9.7	5.3	

Source: Iowa Department of Public Health

From 2002 to 2004, the child death rate in Webster County was 0.0 compared to the state's rate of 0.2

Child deaths include deaths to all children ages 1 to 14. Child death rates are the number of deaths in this population per 1,000 total population age 1 to 14.

4. Child Death Rates

Year	Webster County		State	
	n	rate	n	rate
2002-2004	0	0.0	0.2

Education Profile

In Webster County, 60 children were enrolled in Pre-Kindergarten during the 2004-05 school year. This was a 33 child increase from 2001-02.

Pre-Kindergarten students often demonstrate stronger early reading and math skills than non PK students.

5. Pre-Kindergarten Enrollment

	Webster County	State
2001-2002	27	5,714
2002-2003	56	5,949
2003-2004	59	6,907
2004-2005	60	6,108

Source: Iowa Department of Education

The Linking Families and Community Empowerment Area reported at least 50.8 percent of its kindergartners consistently displaying school-ready behaviors in the five areas. Statewide at least 33.7 percent of kindergarten students were reported as school ready.

"School readiness" is the result of kindergarten teachers being asked to assess their students in 5 areas: communication skills, cognitive skills, self-management skills, motor skills, and social-emotional development. Teachers report the degree to which behaviors within these five areas are observable ranging from "rarely" to "consistently".

6. School Readiness*, 2003-2004

	Empowerment Area		State	
	n	rate	n	rate
Motor Skills ¹	57.6		46.1	
Communication Skills ²	50.8		33.7	
Cognitive Skills ³	61.8		41.8	
Social/Emotional Dev. ⁴	64.0		47.0	
Self-Management Skills ⁵	60.7		41.2	

* Percent reported "consistently observed"

Source: Iowa Department of Education

¹ Include coordination and balance, using scissors, etc.

² Include the ability to ask and answer questions, communicate needs, etc.

³ Include using a variety of words to describe a shape or color, ability to sort objects into categories, etc.

⁴ Includes ability to build relationships with adults and peers, express emotions and feelings, etc.

⁵ Includes ability to follow classroom rules and routines, take responsibility for personal belongings, etc.

Economic Profile

During the 2004-05 school year, 40.1 percent of K-12 students in Webster County were eligible for free or reduced-price school compared to 33.6 percent in 2001-02. Statewide a total of 148,759 students (31.1%) were eligible for free or reduced price meals.

Because eligibility for free and reduced-price school meals is an annual measure, it is a good indicator of the economic well-being of children in a community. Families with incomes 135% or less of the federal poverty threshold are eligible for free meals, those with incomes 136% to 180% of poverty are eligible for reduced-price meals.

7. Eligibility for Free or Reduced-Price School Meals

	Number Eligible for Free Meals		Number Eligible for Reduced-Price Meals		Percentage Eligible for Free or Reduced Price Meals	
	Webster County	State	Webster County	State	Webster County	State
2001-02	1,408	93,062	473	36,492	33.6	26.7
2002-03	1,442	100,544	487	36,870	34.9	28.5
2003-04	1,707	107,324	415	36,907	38.3	30.0
2004-05	1,661	111,390	458	37,369	40.1	31.1

Family Living Profile

While the majority of the 9,121 children under 18 years of age in Webster County in 2000 resided in a two-parent family, 24.9 percent lived in a family headed by a single parent.

Children by Family Type, 2000

Source: Census 2000, SF1, US Bureau of the Census

In Webster County, 70.9 percent of children under 6 living in a family or subfamily had all parents in the labor force compared to 71.4 percent statewide. All parents includes both parents in a married-couple family and the parent in a male- or female-headed family.

Safety Profile

The number of confirmed cases of child abuse or neglect in Webster County in 2004 was 207, an increase of 8 since 2000.

9. Confirmed Cases of Child Abuse and Neglect

	Webster County	State
2000	199	10,821
2001	203	12,793
2002	224	12,292
2003	197	14,936
2004	207	14,499

Source: Iowa Department of Human Services

In 2004, Webster County reported 1,801 Group A and 1,924 Group B arrests per 100,000 juveniles compared to rates of 1,687 and 1,199, respectively, for the state.

Source and further details available @ http://www.dps.state.ia.us/documents_repository/DPS/2004/iacrime/iacrime.htm

Juvenile arrests are reported in 2 groups, Group A offenses include such crimes as murder, rape, burglary and drug violations while Group B offenses include curfew, drunkenness and runaways.

8. Employment Status of Parents with Young Children, 2000

	Webster County		State
	n	%	%
Total Own Children in Families			
Under 6 years:	2,987		
Living with 2 parents	2,126		
Both parents in labor force	1,479	69.6	69.2
Living with father only	210		
Father in labor force	188	89.5	88.8
Living with mother only	651		
Mother in labor force	450	69.1	75.9
