¹ The term "calendar year" refers to the year the money income was received by the Current Population Survey respondents.

NOTE: In developing the state median income estimates for FFY 2008, the Census Bureau used the 2005 ACS. This change to direct estimates is reflected in the FFY 2008 state 4-person family median income estimates. Generally, this change decreased, on average, state median income estimates by about 5.7 percent compared to the model-based estimates.
