Revised state personal income estimates for 2005-2007 were released September 18, 2008. These estimates incorporate newly available state-level source data. Per capita personal income and per capita disposable personal income were computed using midyear population estimates of the Census Bureau, released December 2007.

Per capita personal income is total personal income divided by total midyear population.
All state and local area dollar estimates are in current dollars (not adjusted for inflation).

^P Preliminary estimate.
